

ASSIGNMENT2 :(25%)

Firestore

Strengthen your ability to apply your knowledge of web services.

Overview

Overview: Create a simple weather app that shows the weather for a three locations.

Your application will leverage weatherapi.com site to retrieve weather data.

Your UI should include these screens: The weather app will have two screens. The first screen will have a list of 3 regions. Upon selecting one of the regions will take you to the second page.

You may reuse some of the UI elements from previous assignments for this assignment.

Your app must be written in either Java or Kotlin. Hybrid platforms (e.g., React Native) are not acceptable.

You can work in a **group of Two** from your section.

Only use tech stack that we have used in class. Any unauthorized technologies will result in an automatic zero.

Any compressed project over 50MB will receive a mark of zero.

Instructions:

Part 1 Weather Regions (20 Marks):

1. **Mandatory:** Page one will have a list of 3 weather locations.
2. Location 1: Toronto
Location 2: Montreal
Location 3: Your Choice
3. The list of locations will be stored in a RecyclerView.
4. When the users taps on one of the locations, the app will direct the user to the second details page.

Part 2 Weather Details (20 Marks):

1. **Mandatory:** Page two will show the weather details of the location selected from the first page
2. Weather details page should display the location, temperature (Both C/F), Condition and Windchill
3. The weather details page will have a back button, to take the user back to the main locations page.

Part 3 Design : Your App is Aesthetically Pleasing (20 Marks):

1. You've designed your App with good Aesthetic standards including appropriate margins, padding, colors, contrast and overall layout while always keeping the user in mind.

Part 4 Code Quality: (20 Marks)

1. Ensure your app includes the following components.
 - a. Clean Build
 - b. MVVM Architecture.
 - c. LiveData.
 - d. ViewBinding.
 - e. WeatherAPI.
 - f. RecyclerView
 - g. OKHTTP

Part 5 Video Presentation: (20 Marks)

1. Create a Short Video presentation on YouTube or another streaming provider. You must include a short PowerPoint (or Google Slides) Slide Deck that includes a single slide to start your video
 - a. The **first** (and only) **Slide** of your Slide Deck must include a **current image** of you and team members (no avatars allowed) that is displayed appropriately on the page. You must also include your Full Name(s), Student ID(s), the Course Code, Course Name, and your Assignment information.
 - b. You will **demonstrate** your app's functionality.
 - c. You must **explain how your apps code works.**
 - d. Sound for your Video must at an appropriate level so that your voice may be **clearly heard.**
 - e. Your screen resolution should be set so that your code and app demonstration is **clearly visible.**
 - f. Your Short Video should run no more than 10 minutes.
 - g. Your Video may be unlisted, but must be accessible to the instructor
 - a. Make sure the instructor has permission to view the video.

Submission Details:

Your submission should include:

- a. A **zip archive** of your Project files (Mandatory)
- b. Format for Zip file: **assignment{Number}_{StudentLastName}.zip**
- c. **Submit your PPT file** which has a link embedded **to your Video Presentation**

Assessment:

You will be assessed on the following:

	Not Quite	Good Work	Awesome
Weather Regions (20 Marks)	(0 - 6 marks)	(7 - 13 marks)	(14 - 20 marks)
Weather Details (20 Marks)	(0 - 6 marks)	(7 - 13 marks)	(14 - 20 marks)
Your App is Aesthetically Pleasing (20 Marks)	(0 - 6 marks)	(7 - 13 marks)	(14 - 20 marks)

	Not Quite	Good Work	Awesome
Code Quality (20 marks)	(0 - 6 marks)	(7 - 13 marks)	(14 - 20 marks)
Video Presentation Your short video must demonstrate and explanations of your app and code (20 marks)	(0 - 6 marks)	(7 - 13 marks)	(14 - 20 marks)

Due Date:

Check Class Website

Late Submission:

1 day late -20% cumulative penalty
 2 days late -40% cumulative penalty
 3 days late -100% cumulative penalty

Assignment Weight:

Assignment is worth 25% of your final grade.

Please submit your assignment online under Assignments
